

A quick and easy solution to cover broken lids and keep your work site safe!

KEY FEATURES & BENEFITS:

- Light weight with portable handle
- Stackable for transport and storage
- Pre-formed anchor points
- Metal reinforced underside
- Make pedestrian areas safe when concrete lids fail
- Keep pits covered during construction
- Built-In handhold for safe lifting
- Non-slip surface
- Load 1000kg

Model No.	Cover Size	Clear Opening	Weight	Applicable Standard	Load Rating
TFPAQ12-100	1200 x 800 x 44mm	900 x 700mm	18kg	AS3996	Class A10 –1,000kg

Materials	Range of Temperature	Tensile Strength	Elongation at break	Hardness	Impact elasticity	Abrasion Performance
HDPE	-20°C - +55°C	15.0MPA	500%	95A	31%	0.21CM3/1.61KM.
